

Getting Started with VCDOCS-MAIN

This guide helps you run the Vendor Cab & Driver Onboarding System locally.

Installation & Setup

Download the project:

Download the ZIP file from the GitHub repository

Extract the ZIP and open the terminal in the root folder: VCDOCS-MAIN

Install dependencies:

```
npm install
```

Start the development server:

```
npm run dev
```

Open your browser and navigate to:

<http://localhost:5173>

Login Credentials

You'll be asked to log in. Use one of the following mock credentials based on your role:

Role	Email	Password
Super Vendor	Mail : super@vendor.com	Password : super@123
Regional Vendor	Mail : regional@vendor.com	Password : regional@123
City Vendor	Mail : city@vendor.com	Password : city@123
Local Vendor	Mail : local@vendor.com	Password : local@123

You're now ready to explore the Vendor & Driver Onboarding system!
